| Energy consumption of kWh per year, calculated on the basis of results obtained in 24 hours under normal test conditions. Real energy consumption depends on the conditions in which the equipment is used as well as where it is placed. |                        |
| This appliance is designed for use at an ambient temperature within the 16°C - 43°C range.  |                        |
